

Portfolio Advisor Biography

Brian LoDestro, CFA
Vice President and Portfolio Advisor
Retail Product Management
Prudential Fixed Income Management

Brian is responsible for providing clients and prospects with ongoing updates on the investment philosophy, process, and performance of several Prudential Fixed

Income Management (PFIM) investment strategies. He also has product management responsibility for many of the retail mutual funds sub-advised by PFIM, including JennisonDryden's fixed income mutual funds.

Management Experience. Before joining Prudential in 2007, Brian was a vice president, client portfolio manager, and director of marketing for Shikar Asset Management. He also spent six years as a vice president in CitiStreet's Institutional Investment Services Group, where he was responsible for investments and client servicing for proprietary mutual funds, registered investment advisory programs, and an open architecture mutual fund platform for institutional clients. Earlier, he worked for PaineWebber and Merrill Lynch & Company.

Background. Brian has a B.S. in business administration from Bryant College, and an M.S. in management from Boston University. Brian holds the Chartered Financial Analyst (CFA) designation and FINRA Series 7, 63, 65, and 52 licenses.

Consider a fund's investment objectives, risks, charges, and expenses carefully before investing. The prospectus contains this and other information about the fund. Contact your financial professional for a prospectus and read it carefully before investing.

At JennisonDryden, experience matters

JennisonDryden is Prudential Financial's mutual fund and separate accounts family. We offer a broad spectrum of investments—from core portfolio building blocks to strong sector funds. The managers of our funds are known and respected by major corporations and pension funds throughout the world. When you invest with us, you benefit from the same process, research, risk management, and competitive performance demanded by some of today's largest investors.

Investing in mutual funds involves risks. The investment return and principal value will fluctuate and shares, when sold, may be worth more or less than the original cost. There is no guarantee that the manager's investment objectives will be achieved.
